SUMMARY

Product-focused software engineer with about three years in the industry. I build secure, scalable backend systems and modern frontends, and take products from idea and architecture through to deployment and production support. Experienced with Node.js, NestJS, PostgreSQL, Redis, queues, payment integrations and AI-assisted features.

TECHNICAL SKILLS

Backend	Node.js, NestJS, Express, REST APIs, JWT auth and RBAC, background jobs (BullMQ), Stripe and Paystack integrations
Frontend	React, Next.js (App Router), TypeScript, JavaScript, Tailwind CSS
Data	PostgreSQL, MongoDB, Redis, Prisma, Drizzle ORM, database optimisation
Infra & delivery	Docker, Linux and VPS deployment, CI/CD, Cloudflare, AWS S3, Cloudinary, Vercel, Render
Practices	API security, load testing, logging and monitoring, Jest and Supertest, production troubleshooting

EXPERIENCE

Software Engineer · Freelance, Remote 2025 – Present

- Design, build and deploy full-stack applications, owning architecture, APIs, database design and deployment.
- Backend, frontend, API, database, AI integration and infrastructure work on a confidential AI-assisted marketing intelligence platform for a client (data intelligence, campaign recommendations, execution workflows).
- Build secure REST APIs with authentication, authorisation and third-party integrations; add Redis caching and performance tuning.

IT Intern · H267 Company Ltd 2022 – 2025

- Supported internal systems and end users, and helped maintain company websites and web applications.

PROJECTS

Shoppe · Full-stack e-commerce platform github.com/kingsleychinecheremibeh/shoppe

Next.js, TypeScript, Express, PostgreSQL, Prisma, Redis, Stripe, Paystack, Cloudinary

- JWT auth with HTTP-only cookies, refresh token rotation and role-based access control.
- Admin dashboard for products, inventory, orders, users, shipping and analytics; Swagger API docs.

Eshop · Multi-vendor e-commerce platform In progress

Next.js, TypeScript, Express, PostgreSQL, Prisma, Redis, AWS S3, Stripe, Paystack, Jest

- Customers, vendors and admins with email verification, password reset and RBAC.
- REST APIs for products, carts, orders, payments, reviews and wishlists; Redis caching to cut database load.

QueueFlow · Queue management platform

Next.js, TypeScript, Express, PostgreSQL

- REST APIs for queue creation, customer management and status tracking, with a responsive UI.

EDUCATION & CERTIFICATIONS

New Horizons Nigeria, Lagos · Full Stack Software Development June 2026

- Certified Front-End Developer; Certified Back-End Developer
